# Welcome to "Epilepsy Demystified"

We invite you to an engaging, case-based workshop designed to unravel the complexities of epilepsy.

This is not a lecture-heavy CME - it's a focused small-group learning experience led by senior epileptologists and international experts.

Each session is designed to promote critical thinking, clinical reasoning, and confidence in epilepsy diagnosis and management.

## Workshop Highlights

### Interactive Case-Based Discussions

Explore real-life epilepsy cases curated by expert faculty.

### Small Group Sessions

Engage in focused conversations, personalized learning, and peer interaction.

### Senior Epileptologists as Tutors

Learn directly from leaders in epilepsy care.

### Expert Q&A Panels

Renowned national and international specialists will address your clinical dilemmas at the end of each session.

## Topics Covered

ILAE Seizure & Syndrome Classification

Approach to the First Seizure & Differentials

Medical Management Essentials

Women with Epilepsy: Special Considerations

Epileptic Encephalopathies

Deep Dive into Pediatric Epilepsy Syndromes

## Who Should Attend?

Neurologists, Pediatric Neurologists, and Trainees in neurology and pediatric neurology who are keen to sharpen their understanding of epilepsy.
